

2026 CATALOG

A simpler way to maintain
a vehicle's **paint finish.**

SKYGLOSS

factory forever

Why have endless amounts of
products when you only need the

BEST OF EACH KIND

OUR MISSION

To keep the health, beauty, integrity and thickness
of a vehicle's paint finish, Factory Forever.

It's a simple concept, and today it's possible with SkyGloss. We are excited to open a whole new opportunity to the market and ultimately a better option for a vehicle.

At the end of the day what matters most is not what's on a vehicle or what services have been done to it — but how close it is to when the vehicle was brand new.

Factory forever

SkyGloss

FUSION

SkyGloss' Clearcoat Fusion Technology allows a paint finish to be built back up to factory rather than cutting it down to nothing.

Building clearcoat is the future of vehicle paint correction and repair, allowing a vehicle's paint finish to stay Factory Forever.

Product	Coverage	Size	Element	Aether
Fusion 250	1 Vehicle	250mL	125mL	125mL
Fusion 500	2 Vehicles	500mL	250mL	250mL
Fusion 2000	10 Vehicles	2L	1000mL	1000mL

Training & Certification Required

Permanent. Guaranteed to never delaminate.

RESIN FILM

RESIN FILM's cutting-edge protection fuses the chemical resistance of coatings with the flexibility of PPF. It creates a durable, intelligent barrier that actively resists harsh chemicals, environmental damage, and micro-marring — while self-healing minor scratches.

Resin Film's dual layer coating is a twin turbo charged performance breakthrough designed to significantly slow the degradation of a vehicle's clearcoat, preserving depth, clarity, and gloss for the long term.

Coverage	Size	Resin	Film
2 Vehicles / 2 layers	60mL	30 mL	30 mL

A hybrid defense system that bridges the gap between coatings and film.

Warranty: 7 Years

SkyGloss

SHINE

SkyGloss Shine's advanced scratch resistance power gives a deeper gloss clarity, and extreme hydrophobic and oleophobic performance.

Engineered for durability, a single application delivers lasting brilliance and defense against the elements. Whether it's water, oil, or environmental fallout—nothing sticks, everything slides.

Coverage	Size
2 Vehicles	30mL

Shine harder. Stay protected longer.

Ready to turbocharge any paint finish.

SKYGLOSS

SkyGloss

M A T T E

SkyGloss Matte is a high-performance resin coating engineered specifically for matte paint, vinyl wraps, and PPF surfaces. It delivers exceptional durability, intense UV and heat resistance, and superior chemical performance—while helping reduce the appearance of light wash-induced “love marks.”

Coverage	Size
2 Vehicles	30mL

Giving matte finishes a chance.

Everything a matte finish should perform like.

SkyGloss

SEAL

SkyGloss SEAL is an all-in-one solution for instant shine, hydrophobic performance, and effortless maintenance.

This ultra-versatile formula acts as both a maintenance coat and a final top coat, enhancing and protecting a vehicle's clearcoat with ease. Whether applied to wet or dry paint, it delivers a high-gloss finish, repels water, and even doubles as a waterless wash — all in one step.

Coverage	Size
2 Vehicles	250mL

Fast. Flexible. Long-lasting.

SkyGloss SEAL keeps your finish looking flawless, anytime, anywhere

SkyGloss

PPF

Built for those who demand more than just protection. SkyGloss Paint Protection Film combines advanced materials with worldclass adhesives to deliver strength, style, and instant self-healing performance.

- 190 Microns Thick – Heavy-duty shield against chips, scratches, and road damage.
- 8-Year Protection – Long-lasting durability you can rely on.
- Instant Self-Healing – Heat activates surface recovery, keeping your car flawless.
- TPU Technology – Premium USA Argotec TPU ensures clarity, toughness, and flexibility.
- USA Ashland Glue – Advanced adhesive for clean installs with no edge lift.

Specification	Details
Size	1.5 M x 15 M (250 SQFT)
Thickness	7.5 MIL (190 µm)
Gloss	Deep, mirror-like brilliance
Matte	Bold satin look with a modern edge

SkyGloss

TOOLS

EDGE BLADE

Precision tungsten-carbide tool for removing dust nibs, micro-defects, and surface imperfections. Dual-edge design offers both smooth scraping and pinpoint correction, while the curved front blade ensures controlled removal without harming surrounding paint. Lightweight, durable, and built for professionals who demand flawless, custom-level finishes. Perfect for spot repairs and high-end refinishing work.

PAINT PEN

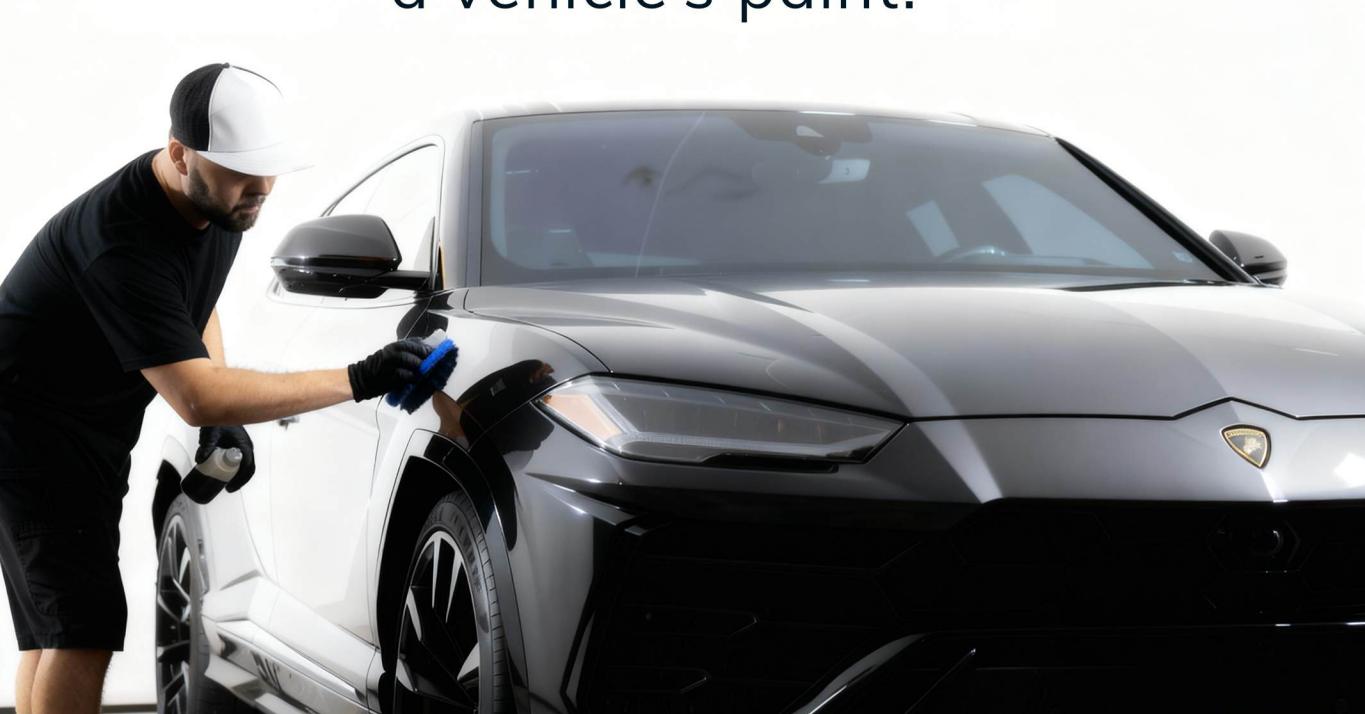

The Touch-Up Paint Pen Set features two precision brass nib sizes, 0.5mm and 0.7mm, designed for accurate repair of small chips, fine scratches, and detailed edges. It provides clean, controlled paint application on a variety of paint surfaces. The knurled grip ensures a steady hand while working, and the pens are refillable and reusable for long-term value. Ideal for quick, reliable touch-ups with a professional finish.

Factory forever

A **simpler product** line for
a simpler way to maintain
a vehicle's paint.
